

Welcome to UKTIN
- not another talking shop

Nick Johnson, Head of UKTIN
27th April 2023

Ready for take-off

1. Why UKTIN?
2. What is UKTIN?
3. How does UKTIN work?
4. Where is UKTIN?
5. What you'll be part of
for the rest of the day...

Why UKTIN? A bit of history

Telecoms Diversification Taskforce

Findings and Report

April 2021

The enduring policy, industrial and investment objectives

- Front Door Service
- Skills Gap
- Supply Chain Diversification
- Revitalised SME sector
- Long term R&D

All reinforced by the recently published Wireless Infrastructure Strategy

UKTIN

Department for
Science, Innovation
& Technology

Policy paper

UK Wireless Infrastructure Strategy

Published 11 April 2023

... high levels of 5G adoption in the manufacturing and logistics sectors could add £15 billion in additional GVA between now and 2035.

...providing up to £40 million for regions and local authorities across the UK to establish themselves as '5G Innovation Regions' to promote innovation and growth through investment in, and scaled adoption of, 5G and other advanced wireless technologies by business and public services

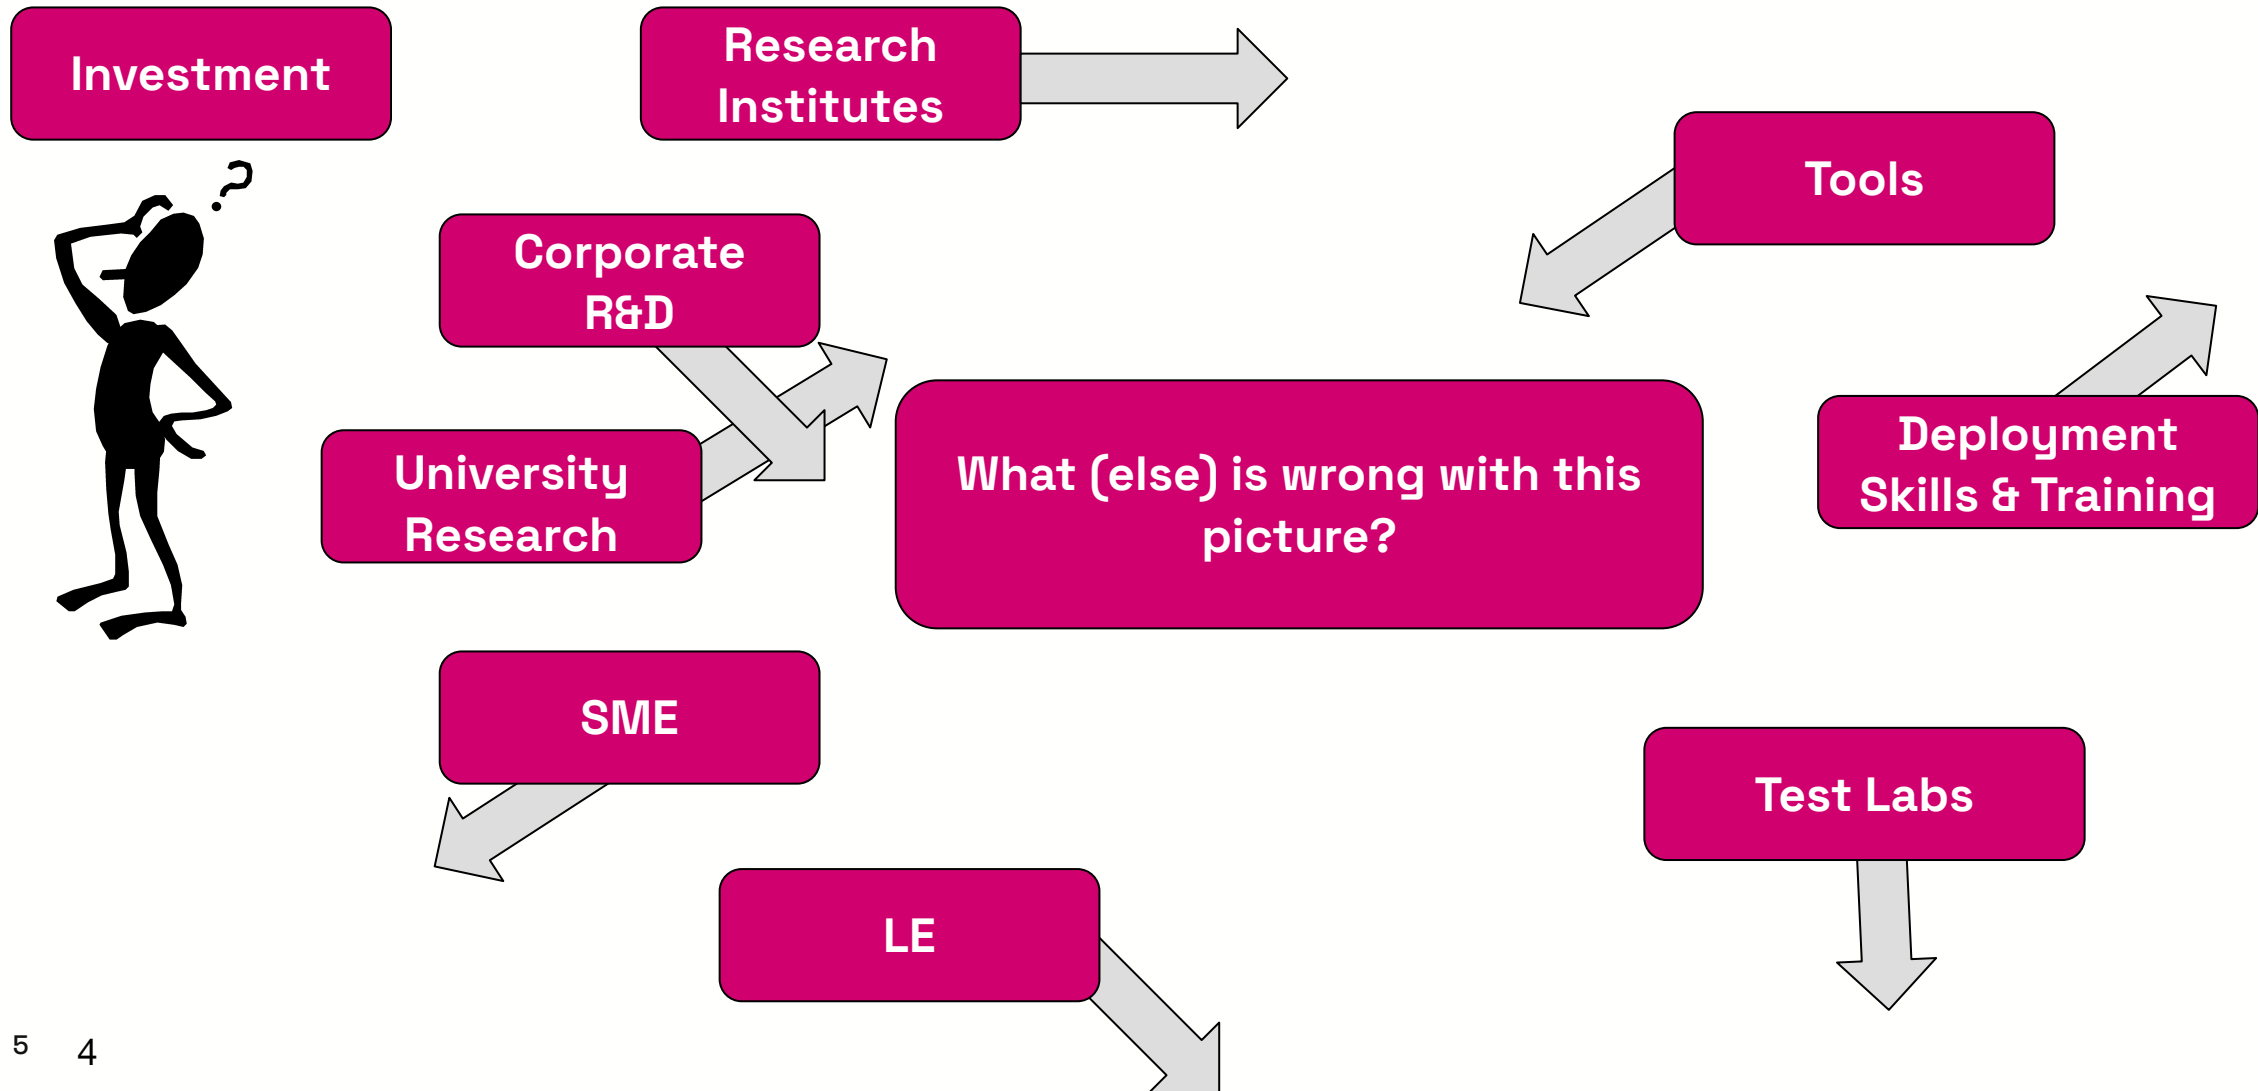

...widespread adoption of 5G could see £159 billion in productivity benefits by 2035.

investing up to £100 million in future telecoms research and development, including through the [EPSRC's] Future Telecoms Research Hubs [...] where early stage and applied research will be funded and coordinated [...] putting the UK at the forefront of the diverse 6G research agenda

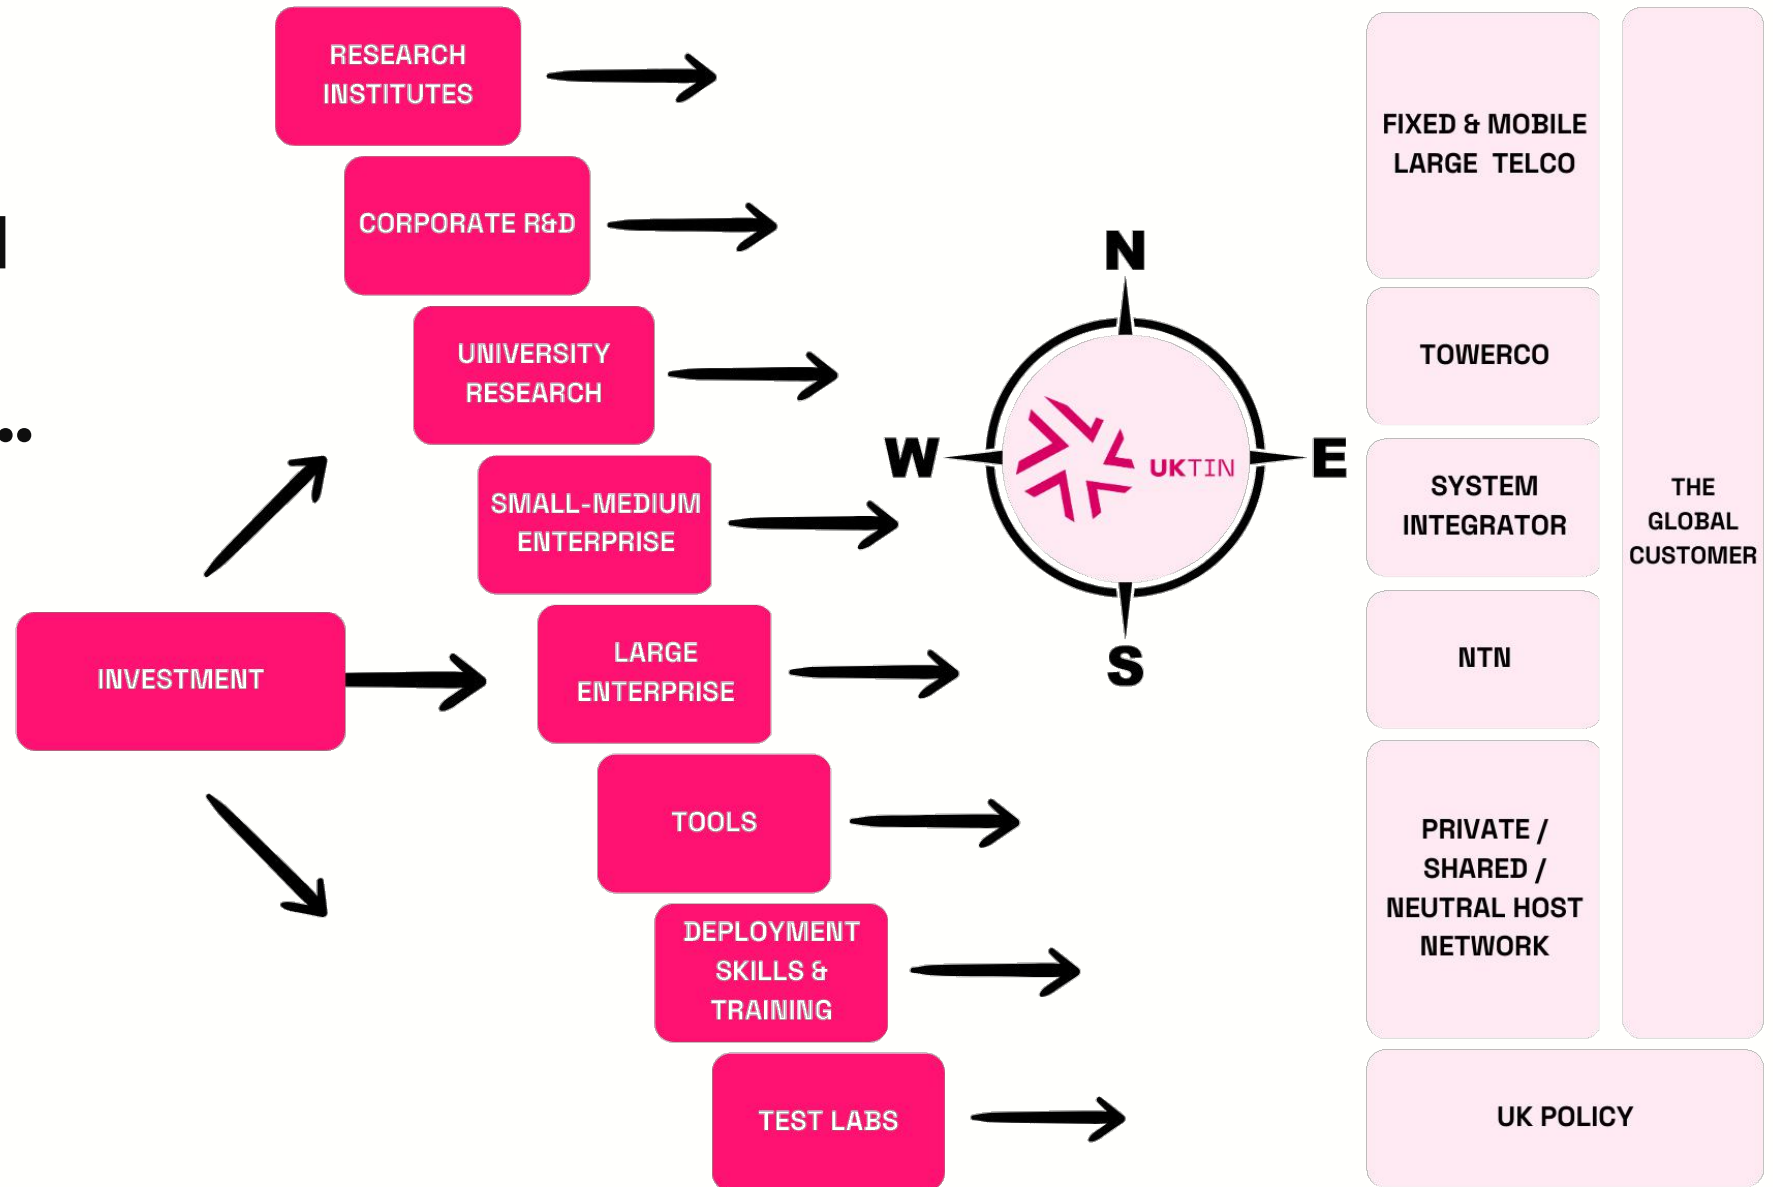

Supported by the [UKTIN] these platforms will engage with the telecoms industry, catapults and internationally around 3 broad themes:

- 1. a network of networks;**
- 2. wireless and wired systems and spectrum;**
- 3. cloud and distributed computing.**

UK Innovation – a voice crying in the wilderness

Making the crooked straight, and the rough places plain...

What is UKTIN – the key work streams

	Ecosystem Communications	Marcomms and Events, new Web Portal	2
The Front Door Service	Data tools and service definition	Curated, easy access database of databases on UK telecom R&D&I capabilities in academia and industry. The stuff that Google can't find.	3
long-term R&D	Supplier Specialist Guidance	Expert signposting support to organisations - business support, brokering to research facilities, support for DCMS interventions	4
Supply Chain Diversity	Coordinating UK Telecoms Future Capability	Inclusive, impartial, tiered ecosystem consultation structure to feed Cross-Government Telecoms Strategy Coordination Group.	5
	Framework for Innovation Translation	Outreach to identified innovators and innovation-led companies. Frameworks for translation of early-stage tech into commercial products	6
Adoption & the Skills Gap	Regionality, Social Value, Skills & Training	National Telecoms Entrepreneurship, Employment and Training network. Better known as UKTIN Talent and UKTIN Clusters	7

The Front Door Service (WP3, 4 and 5) – make straight a highway

- Signposting – Supplier Specialist Guidance – national and international
- Signposting - The Research Capability Database (RCD)
- The Front Door
 - Industry
 - Government
 - Investment

Register

The screenshot shows the UKTIN website interface. At the top left is the UKTIN logo. The navigation menu includes: What's Happening?, Technologies & Trends, Navigate UK Telecoms, Commercialise Your R&D, and Build Skills & Capabilities. On the right, there are links for Search, About, Log In, and a prominent Join button. A large red speech bubble labeled 'Register' points to the Join button. Below the navigation, a main banner features a large white box with the headline 'New investment boosts UK' connectivity' and the subtext 'The next evolution of 5G, future telecoms and a national mission to connect all communities'. To the right of this box is a dark image of a circuit board with a Wi-Fi symbol. Several callout boxes are overlaid on the page: 'Adoption' points to the 'What's Happening?' link; 'Long term R&D and the RCD' points to the 'Technologies & Trends' link; 'Signposting' points to the 'Navigate UK Telecoms' link; 'Translating R&D to product' points to the 'Commercialise Your R&D' link; and 'Skills gap' points to the 'Build Skills & Capabilities' link. At the bottom of the page, there are three news snippets, each starting with 'NEWS' and '5G Network Infrastructure'.

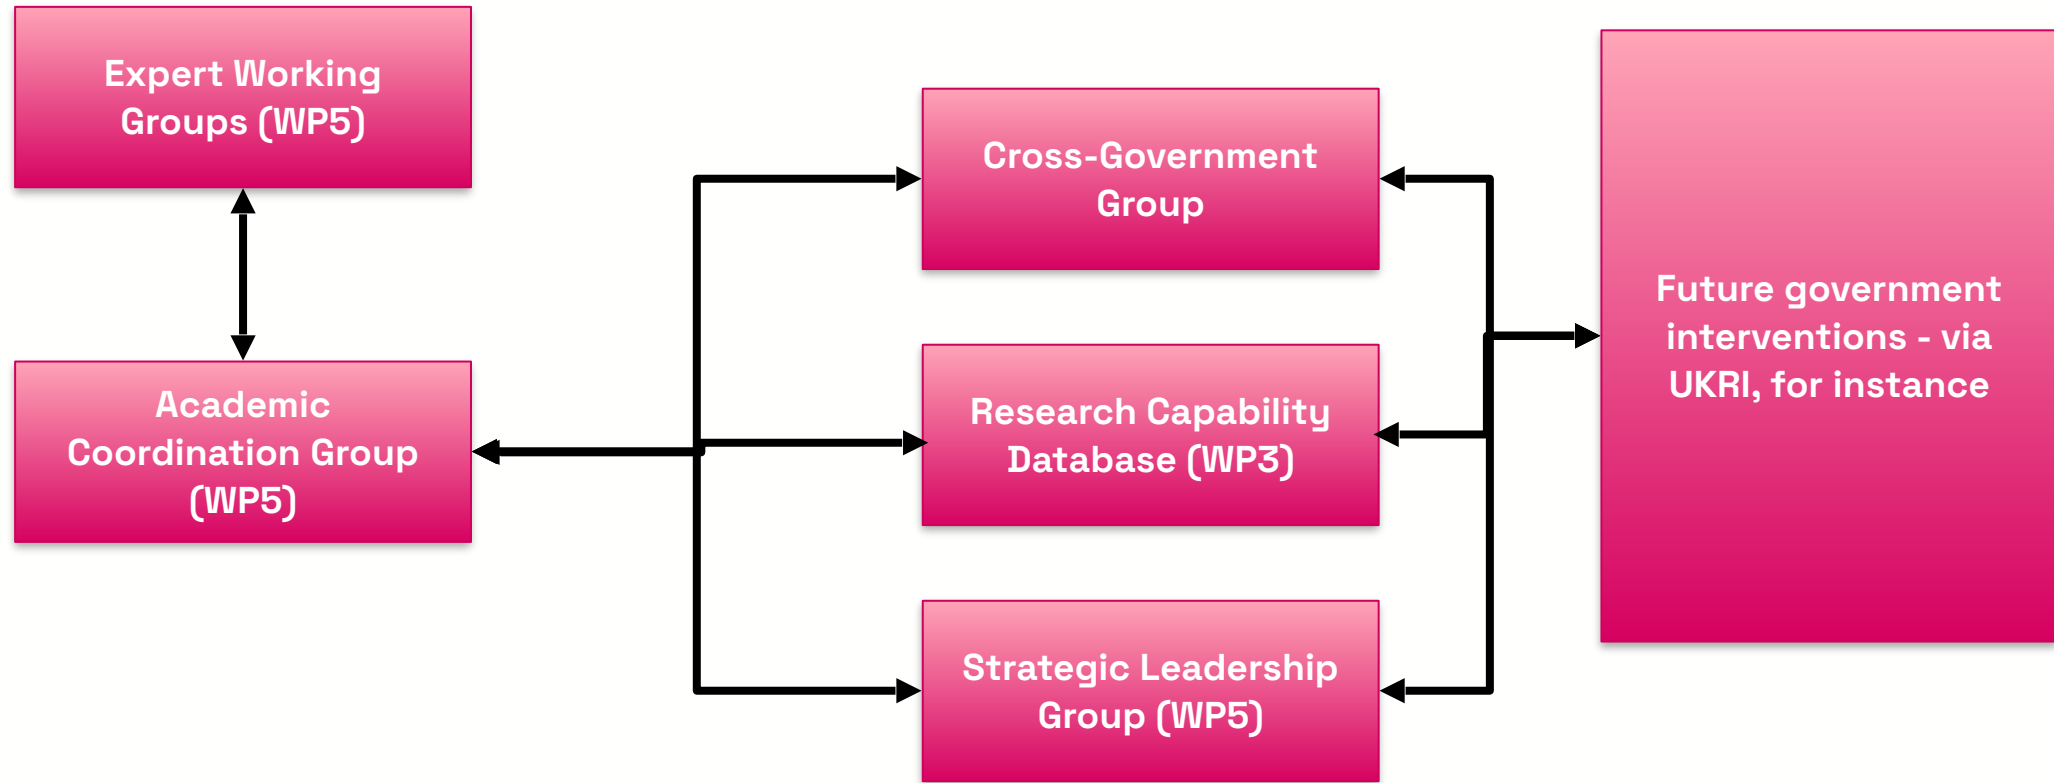

How the Working Groups work...

1. Supply Chain Diversity (WP5 & 6)

How the Working Groups Work

2. Long Term R&D (WP5)

Driving awareness and engagement across both the Talent and Clusters groups

Address skills
challenges
Drive talent into the
sector

E.G. Industry, industry
bodies, training/skills
providers and Govt

Boost talent &
entrepreneurship
across the regions &
nations

E.G. Regional leads, leaders of
regional assets/capabilities,
industry, and Govt
